

Construction 101 and Beyond

Course Description: Looking to expand your knowledge of the Canadian construction industry, and learn how you can help your company be more efficient and effective.

Construction 101 and beyond is your comprehensive overview of the Canadian construction industry. Designed specifically for construction management professionals, this four-half day session online course breaks down the complexity of the industry by examining the important roles for various industry stakeholders. Over these four days, you will examine every step of the industry – from bidding to close out.

Over these four half day sessions, you will examine every step of the industry – from bidding to closeout.

Topics Covered: 1. Introduction to construction industry 2. Major steps in a construction project 3. Risk management 4. Bid documents 5. Contract law 6. Bidding 7. Receiving bids and award of contract 8. Format of contracts and contract clauses 9. Project start up to close out

Who Should Attend: Owners, architects, engineers, suppliers, contractors & trades. If you are an industry newcomer, you will pick up all of the terms, acronyms, and assumptions that everyone in construction needs to know. Those that are more experienced see benefit from learning the bigger picture, new items where you may have missed opportunities with other scopes and stakeholders.

Your Presenter: Phil Perry Phil Perry has 30 plus years in the Construction Industry, most of which was Project Managing Industrial Projects for General Contractors. He has been teaching Post-Secondary Construction Management Courses for the last eight years.

Note: This course is eligible for 4 Gold Seal Credits as well as the [Alberta Job Grant](#)
