# Celebrating 45 Years - 2024

## President's MESSAGE

CHASE SABOT, CST

On behalf of our board of directors, our executive director, and our current members, I would like to thank you for your continued support of the Lloydminster Construction Association (LCA) and congratulate the LCA on 45 years of service and support to the local construction community. Our members are the reason this association exists and without your support, we would not be able to advocate for our local businesses and their interests.

Since the COVID-19 pandemic, we have seen a rebound in the industry with new jobs and projects driving our economy forward. With an increase in new projects kicking off comes the requirements for additional skilled workers to meet this need. Our aging workforce and reduced number of students enrolling in the trades have seen this need go unmet. It is our responsibility to promote the trades and the construction industry to ensure that the next generation of skilled workers are available to meet this need and continue the legacy of previous generations' hard work and perseverance. The LCA continues to assist local businesses by hosting and promoting job postings and helping find candidates to fill local employment opportunities. Our yearly Try-A-Trade event has seen a steady increase in local students and school attendance, allowing each student the opportunity to get excited about the trades and the potential for a fulfilling career in construction.

Finding experienced and skilled construction companies in Lloydminster is not difficult. With local businesses successfully operating in Lloydminster and areas for decades, the support for your construction project can be found right here at home. This magazine is a great platform to showcase and promote these businesses and all the talent they offer our community and surrounding region. As a border city, our members have unique expertise working in both Alberta and Saskatchewan.

With another busy construction season predicted for 2025, I am excited to see our local construction industry continue to grow and provide the experienced support these projects require. The LCA and its partners, the Alberta Construction Association, the Saskatchewan Construction Association, and the Canadian Construction Association, will continue to work together in shaping our industry and providing the support our members need to continue to succeed well into the future. 📍

“On behalf of our board of directors, our executive director, and our current members, I would like to thank you for your continued support of the Lloydminster Construction Association(LCA) and congratulate the LCA on 45 years of service and support to the local construction community. Our members are the reason this association exists and without your support, we would not be able to advocate for our local businesses and their interests.” **Chase Sabot – President of the LCA.**

# Celebrating 45 Years - 2024

Executive Director's MESSAGE

DOROTHY CARSON

Welcome to the 45th anniversary edition of the Lloydminster Construction Association magazine!

Celebrating 45 years as an association is both an honour and a testament to the resilience and dedication of our members. Reflecting on our history, I am reminded of the challenges and achievements that have shaped the Lloydminster Construction Association (LCA) and our region's construction industry. As we continue to face an evolving landscape, I am immensely proud of the support and solutions that we provide to our members to navigate these changes.

Since our 40th anniversary, the industry has faced new uncertainties. Yet, the LCA has remained steadfast, working closely with industry leaders, owners, and local governments to create positive outcomes for our members. Our priority is to ensure the construction community is supported with resources and services that respond to today's demands. An example of this commitment is our provincial partnership with BuildWorks Canada. This collaboration among nine local construction associations in Alberta and Saskatchewan has created an online project information network that expands tender access and business opportunities across provincial lines. With a dedicated provincial team, BuildWorks provides additional pre-bid, public, and private project tenders, as well as advertising opportunities. BuildWorks includes the Member Directory, Online Substantial Completions Certificates, and Invitation to Bid - Private Planroom.

One of our most fulfilling achievements in the past decade has been leading the annual bi-provincial Try a Trade Career Expo, a hands-on career event that drew in over 1,600 students and teachers last year. This event introduces high school students to the trades through interactive exhibits and personal stories from young journeymen. It is a prime example of how we work with educational institutions, local governments, and trade companies to spark interest in trade careers and provide students with real life experiences that inspire and educate. Our 13th annual Try a Trade event will be held on Wednesday, April 30, 2025.

Through ongoing partnerships with national and provincial construction associations, as well as our trade unions with the City of Lloydminster, we are well positioned to represent the interests of our members and advocate effectively at all levels.

As we look to the next 45 years, the LCA will remain committed to serving as a proactive voice for the construction industry, supporting our members, board of directors, and all those who have supported the LCA over the past four decades. Together, we have built something truly impactful, and I look forward to our continued success. ☺

“As we look to the next 45 years, the LCA will remain committed to serving as a proactive voice for the construction industry, supporting our member, and contributing to the prosperity of our community. Thank you to our members, board of directors, and all those who have supported the LCA over the past four decades. Together, we have built something truly impactful, and I look forward to our continued success.” **Dorothy Carson – Executive Director of the LCA.**

## NEWS RELEASE

### Prompt Payment Legislation

January 17, 2024

Over the past several years, the Alberta Construction Association has worked closely with the Government of Alberta in developing the Prompt Pay Construction Lien Act (PPCLA). This legislation was developed within the construction industry in response to chronic problems due to increasing delays in payment for work properly performed and invoiced. GC's, Trades, and suppliers often wait 70 to 90 days or more to get paid - well past expiry of current lien rights. Such payment delays on public & private projects are detrimental to the financial health of firms by restricting cash flow and effectively adding financing costs to projects. ACA and its partners were supportive of the changes made by the Alberta government as a step in the right direction.

Since then, there have been changes to the legislation to exempt projects from the PPCLA. After hearing about the potential changes in the summer/fall of 2023, ACA wrote the Government of Alberta outlining our concerns with exempting projects from prompt pay legislative provisions under the PPCLA. ACA believes that our concerns remain valid to this day, namely, that exemptions effectively force the entire Alberta supply chain to finance these projects. This circumstance led to the introduction of the PPCLA in the first place. Despite our continuing concerns, exemptions to the PPCLA are [now in effect](#).

## City of Lloydminster - Land Use Bylaw Update

This project directly impacts construction professions and is a document that is rarely updated. The City is looking to receive feedback from industry for possible ideas of how to best facilitate development in the city by reducing red tape and simplifying regulations.

CCDC seminar coming to Lloydminster - May 15, 2024

**In-person seminars on CCDC 2 – 2020 'Stipulated Price Contract' and more: Register now**

With so many new construction documents soon-to-be or already released, the Canadian Construction Documents Committee (CCDC) is thrilled to be hosting their first in-person seminars since the pandemic. 27 seminars will be delivered across Canada between April 29 and May 17 by the authors themselves. Attendees will be guided on the use and application of the following new documents.

The CCDC seminar at the Lloydminster Construction Association will be hosted on May 15 (8:30 a.m. - 12:30 p.m.).

Need to know the Legal Term for an "Owner" and updated Roles and Duties for the Prime Contractor in Alberta

**New**

[Legal terms 101: "owners"](#)

**Updated**

[Prime contractor role and duties](#)

Dear colleagues,

As many of you are aware, the construction industry is bracing for a continued significant workforce shortage over the next decade, primarily due to retirements. There is a critical need to address this gap in skilled workers to contribute to the development of a low-carbon economy in Canada, crucial for our economic growth and achieving environmental sustainability.

# Collaborative Program

Funding of up to \$5000 per Alberta post-secondary student for eligible work integrated learning placements is available through the Construction New Talent Program, a program of the Lloydminster and Alberta Construction Associations

# The LCA 1985 – Board of Directors

**Looking forward to a prosperous 1985.** Members of the Lloydminster Construction Association held their first executive meeting Friday. Back row (l to r) Len James, Brian Bloomfield, Wayne Stewart, Rod

Sproule, Jim Broley, Gordon Harris, Ken Dyck and Werner Wall. Seated (l to r) assistant secretary Sandra James, Dwaine Bexson, president Darryl Lario and secretary-manager Donna Riddell.

## New LCA executive meets

by Lisa Lewis  
Meridian Booster

The Lloydminster Construction Association said goodbye to a prosperous 1984 and launched the new year with a meeting of its 1985 executive Friday.

The association, with 44 members, has a mandate to maintain a progressive, competitive construction industry and to promote the education and training of individuals for the industry.

In 1984 the association had a busy year — increasing its membership by 22 and moving its office into the new Chamber of Commerce headquarters.

The plans reading room was active and more than 290 sets of plans and specifications were processed with a dollar value of more than \$80 million.

Local contractors were initial low bidders on 20 jobs received, and the construction association "anticipates an improved year in 1985 for Lloydminster and surrounding areas," states the annual report.

A total of 10 committees have been formed for 1985 and a slate of events are being planned.

In 1984 the local association held a number of social events including a curling bonspiel and a Christmas Ball.

# The LCA 1986 – Board of Directors

Page 4 - The Meridian Booster, Monday, January 27, 1986

**New executive built.** The Lloydminster Construction Association have announced their new 1986 executive and board of directors: (front, from left) vice president Brian Bloomfield, secretary/manager Donna Riddell, president Wayne Stewart, ass't secretary/manager Sandra James and director Boyd Helm. Back row,

directors Rod Sproull, Alfred Neumann, Keith Youngblood, Ken Helmeczi, Gary Johnson, past president Darryl Lario, directors Ken Howrie and Gordon Harris. Missing are directors Richard McNeil and Mark Kohlruss.

# The LCA 1987 – Board of Directors

Page 6 - The Lloydminster Meridian Booster, Thursday, January 22, 1987

**Building new executive body.** The Lloydminster Construction Association revealed their new executive for 1987 during a recent meeting. Front row: finance Keith Youngblood, president Alfred Neumann, secretary/manager Sandra James and vice-president Boyd Helm. Back row: directors, Lloyd Steinkey, Herman Gartner, Ken Howrie, Bert Nerbas, Wayne Stewart, Merv Krauss and

Arnie Bechard. Missing, directors, Rod Sproull, Bruce Murdock and Robert McNeil. The association has been in operation since the early 70s and exists solely on membership fees paid annually by its members. The organization is affiliated with the Alberta Construction Association, Saskatchewan Constuction Association and the Canadian Construction Association.
